Building on the COGZ EZ Foundation

Besides being powerful, exceptionally easy to use, and exceeding the needs of thousands of maintenance departments across the world, COGZ EZ CMMS Software is easily expandable. One of its most valuable features is the built in ability for COGZ EZ to grow with you. There is never a need to convert or re-enter data as you add new capabilities. Start out with the COGZ EZ foundation, there is no need to purchase features "just in case". When you have established a definite need for an additional COGZ building block, it can be quickly and seamlessly added to your live, working software.

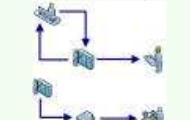

Most customers find COGZ EZ is all they need to run efficient, cost saving Preventive Maintenance Software, but rest assured that if the need arises for additional capabilities, COGZ has a range of modular building blocks that add to the COGZ EZ firm foundation, allowing COGZ EZ to grow as your company grows.

What COGZ Users are Saying!

Randy Peterson
 Excellent program, and I'm looking forward to using it often!

Town of Fairfield WPCF
 John Bodie *Maintenance Manager*
 I think it is a fantastic policy to let people try the system without giving out too much personal information which would start a flood of sales calls! Most other CMMS providers want e-mails, phone and fax numbers and immediately start to put the pressure on!! Thank you for making it so easy and stress free!

PolyOne Corporation
 Al Fischer *Maintenance Supervisor*
 I want to thank customer service for their help in restoring my PM program after we had a network and file issue at our company. They worked with me over several days and I am now able to use the program as it is designed. Thank you!!

Absorption Corp
 Christy Van Wagoner
Executive Assistant
 The best Customer Support that I've ever encountered!

COGZ Systems

Our Company

Software and Service	COGZ Systems is a leading provider of maintenance software and services enabling our customers to reduce costs and improve efficiency.
Twenty Years Strong	COGZ Systems has been successfully helping companies improve their maintenance operations for over twenty years. Our continuous growth and innovation assures you that COGZ will be there in the future for you.
Worldwide	Around the world, thousands of companies use COGZ every day to manage their maintenance operations.
Maintenance Only	COGZ Systems specializes in maintenance software and services! Maintenance software is the backbone of your maintenance management operation and should be the focus of the company supplying you with it. Don't gamble with a company that might decide to get out of the "maintenance software" business.
Experience	With decades of maintenance management experience, you will also be working with a staff that knows not only COGZ but MAINTENANCE as well.

Our Capabilities and Services

Training	One of the best features of COGZ CMMS Software is that it requires very little training to operate, but if desired, full training is available both onsite or online!
Implementation	If you are short on time we have full implementation capabilities including data gathering and database development.
Database Conversion	When upgrading to COGZ CMMS Software, from another system, use the built in database import features to import your data or contract with us for a system delivered complete with your data.
Data Integration	The ODBC drive allows COGZ to integrate with other software systems. Our development team can also provide custom data integration services.
Customization	Our in house programmers look forward to your suggestions and requests for modifications. We also offer full customization services if there is specific feature that is important to your operation.
